All measurements have been adjusted to the nearest whole number.

Surveyed by the projection measurement along the horizontal plane from the Distance Point on the tee to the centre of the green of each hole, per Clause 11 and decision 7(b). Where Fixed Distance Points are sited less than 4 yards from the rear edge of the teeing area, measurements have been taken from a Notional Distance Point 4 yards from the rear edge to give the Certified Rating Length. All measurements have been taken from the tee to the green along the designed line of play.
